

# Fluoride

## Brad Sucks

Thanks for picking up my broken teeth  
I spit 'em out 'cause I can't swallow anything  
Mouthwash is pumping through my veins  
Just to help me get me on my feet and clean again

Coming straight out of your mouth and into the ground (Mmm)  
Coming straight out of your mouth and into the ground (Mmm)

Taste the flavor I'll be taking pains  
To do the things I gotta do to be the same  
I don't feel the way I think I seem  
Maybe I can work it out in surgery

Coming straight out of your mouth  
And into the ground (Mmm)  
Coming straight out of your mouth  
and into the ground (Mmm)

It's the same thing outta your mouth  
A little fluoride  
It's the same thing outta your mouth  
A little fluoride ...'ride  
It's the same thing outta your mouth  
A little fluoride  
It's the same thing outta your mouth  
A little fluoride ...'ride
