Will the Wolf Survive?

Los Lobos

Through the chill of winter
Running across the frozen lake
Hunters are out on his trailAll odds are against him
With a family to provide for
The one thing he must keep aliveWill the wolf survive?Drifting by the roadside
Climbs each storm and aging face
Wants to make some morning's fateLosing to the range war
He's got two strong legs to guide him
Two strong arms keep him aliveWill the wolf survive?Standing in the pouring rain
All alone in a world that's changed
Running scared, now forced to hide
In a land where he once stood with pride
But he'll find his way by the morning lightSound across the nation
Coming from your hearts and minds
Battered drums and old guitarsSinging songs of passion
It's the truth that they all look for
Something they must keep aliveWill the wolf survive?
Will the wolf survive?
