Still Surfin'

Beach Boys

He used to ride the sidewalks in a landlocked town
A solitary surfer still he got around
He had his favorite spots now where the best rides could be foundWith posters on his wall from Surfer magazine
His room looked like a shrine to the surfin' scene
Go to Hawaii out of high school was his big time college dream
(That's where the girls are)Did you ever wonder what happened to surfer Joe
He up and took a trawler down to Mexico
With a pretty senorita we both used to knowYou can see him catch a wave in the mornin' light
And sometimes you can find him on his board at night
A silouette on water as the sun dips outta sightHe's still surfin'
(Still surfin')
He's still surfin'
(Still surfin')You'll catch him on a wave on his way to class
Then be back there after school on his daylight glassHe's still surfin'
(Still surfin')
He's still surfin'
(Still surfin')Surfers always love them summer days
With a board in the water rollin' with the wavesHe's still surfin'He's always been a surfer since the early days
Spendin' the summer searchin' for that perfect wave
He and his surfin' senorita never seem to ageHe doesn't do a whole lot with his law degree
They thought about a major oceanography
But he does a lot of thinkin' 'bout how to save the sea
(That's where the waves are)Things up north were gettin' kinda out of hand
So he got a break to see the ride on the sand
With his little mama seated in a surfer's never never landYou can see him catch a wave in the mornin' light
And sometimes you can find him on his board at night
A silouette on water as the sun dips outta sightHe's still surfin'
(Still surfin')
He's still surfin'
(Still surfin')You'll catch him on a wave on his way to class
Then be back there after school on his daylight glassHe's still surfin'
(Still surfin')
He's still surfin'
(Still surfin')Surfers always love them summer days
With a board in the water rollin' with the wavesHe's still surfin'In the mornin' light, he's still surfin'
On his board at night, he's still surfin'
In the summer days, he's still surfin'
Rollin' with the waves, he's still surfin'
