Stop My Head

Evan Dando

Speaking before you figure it out
Not always right but never in doubt
Stepping inside for now
Your mind is red, fall down deadInto the dark, out of the room
Out of the way, never too soon
Some of the ground you gave
Lost instead, fall down deadDont listen to me, listen to yourself
Listen to yourself
Dont listen to me or anybody else
Listen to yourselfSome of the things you said
(Some of the things)
Stop my head, fall down dead
Fall down dead
