

Sweet Vacation

Lionel Richie

Just say come on let's be alone, babe
Just say you want to spend some time with me
Just say be anywhere we are
It's all about love and anything we wanna be Just say you feel the fire burning now
Just say the sun only shines on your face
Just say this love can last forever
I want to show you how much I want to know you There's a dream that I'm dreaming inside my head
And I know just right where we're going
Come on and take this ride
Just come on inside and make this dream reality Let's both just get away, your smile's my holiday
Don't you know that you're my sweet vacation Just say, just put your heart in my hand
Just say I'll lay the whole world at your feet
Just say we're going on a journey
And I can't deny what I'm feeling inside Now I see the joy, I see the laughter we just don't care
Happiness will never leave us alone
You know there's such a place, a wonderful place
Where love can find you and me, oh Let's both just get away, your smile's my holiday
Don't you know that you're my sweet vacation
Let's both just get away, your smile's my holiday
Don't you know that you're my sweet vacation What I wanna say right here girl is
When I think about you, baby
When I talk about you, baby
What I say about you, baby
World should know about you, baby 'Cause I really need you, baby
'Cause I really love you, baby
See I really miss you, baby
Come on, let's get away Let's both just get away, your smile's my holiday
You're my sweet vacation
Through storms we'll find the stars, sometimes they tell us who we are
Don't you know that you're my sweet vacation
