

# Up All Night

David Archuleta

I am knocking, standing at your door  
Somewhere new, I've never been before  
Take me in, and it feels like home  
It's getting late, and I don't wanna go  
Something simple in the way this feels  
Our love is something pure and real  
It's getting late, and I have to leave  
But tonight your memory, is holding me  
I'm wide awake with you  
All these feelings inside, keepin' me up all night  
All these feelings inside, I'm wide awake  
All these feelings inside, keepin' me up all night  
Pictures that cross my mind, they keepin' me up all night  
They keepin' me up all night  
They keepin' me up all night  
They keepin' me up all night  
Feel my heart, and there's an answered prayer  
Feel the magic in the midnight air  
Breathe it in, I wanna pass it on  
The strength of fighting somewhere you belong  
I'm wide awake with you  
All these feelings inside, keeping me up all night  
All these feelings inside, I'm wide awake  
All these feelings inside, keeping me up all night  
Pictures that cross my mind, they keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Hands so small but I am safe and sound  
Where I stand feels like solid ground  
No where else that I'd rather be  
No greater gift than what you've given me  
All these feelings inside, keeping me up all night  
All these feelings inside, I'm wide awake  
All these feelings inside, keeping me up all night  
Pictures that cross my mind, they keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Keeping me up all night  
Keeping me up, keeping me up at night
