

Jump on Demand

Sponge

So you're sat there in first class
well i'm not gonna kiss your ass
'cause i dont care
outside you may be smartly dressed,
inside your just like all the rest so, i dont care
i'm not the kind of guy who likes to go to work
its just i need the money
oh i dont know why you find that so funny
maybe i dont look my best
at least i fit in wid the rest so I DONT CARE, every body[chorus]
jump jump jump cant understand it when people demand it [x2]
why is it u seem to be lookin down your nose at me
maybe we should take the time to prove your bloods red like mine remember when you're bein' rude
that we're the ones that cook your food, so just take care
'cause i know it might offend if we were to go
and send u chicken a la pubic hair
you're the ones that sit there u just sit there
and get fatter and yet we're the ones that dont really matter
All i'll say is just beware 'cause we're the ones that put you there
and WE DONT CARE!everybody[chorus]
