

When You're Around

Motion City Soundtrack

Midwest love affair I bend when I am bored
Late night liquor blue will lead me to the floor
Can we fake it? Can we make believe?
I'm so full of love it deeply sickens me But all I could do is close my eyes
And cross my arms and hope to die
'Cause you don't fucking listen
When I'm around The least you could do is take it back
All the vicious remarks and verbal attacks
'Cause I can't fucking stand it
When you're around Midwest aftermath the rumors start to rise
Did I truly do the things that you've described?
And they must hate me every single one
It just sickens them what I consider fun But all I could do is close my eyes
And cross my arms and hope to die
'Cause you don't fucking listen
When I'm around The least you could do is take it back
All the vicious remarks and verbal attacks
'Cause I can't fucking stand it
When you're around But all I could do is close my eyes
And cross my arms and hope to die
'Cause you don't fucking listen
When I'm around The least you could do is take it back
All the vicious remarks and verbal attacks
'Cause I can't fucking stand it
When you're around No, I can't fucking stand it when you're around
No, I can't fucking stand it when you're around
