

# Used to Run

## Sister Hazel

Don't know what I'm gonna make of this.  
Feeling contemplative today.  
I'm used to finding solace  
In what I bought or what I thought but  
That's not going to be satisfactory today.[Chorus]  
Used to run and try to hide, Today I'll stay and pick a side  
And if I die well least I tried  
Yourr standin' in my way Looked around this place to see where I belong.  
Feel misunderstood again today.  
It's such a strange sensation  
Being my kind here in this time yeah.  
But that's not cause for much  
But aggravation today.[Chorus] Where was I, when Jimi kissed the sky?  
And a Beatle said it's not too late to "Give peace a chance."  
I survived The Brady Bunch, And the age of "let's do lunch"  
Time is time - yeah time is time, Time and time again.[Chorus: x2]
