

Yours To Shake

Greylag

It isn't all bad,
it isn't all good
We'll never get it all right, but we can make it work
It isn't all bad,
it isn't all good
But I wanna die trying to make it better than we could
If you would give me some sweat, and I would give you blood
We can meet up in the middle,
baby, make some noise
If you would give me some sweat, and I would give you blood
We can meet up in the middle,
baby, make some love
What's it worth to you?
What's it worth to you?
Say you wanna feel the fire,
but you don't wanna get burned
Best keep your distance from me,
because Im a fiery one
I wanna burn all of your walls,
and the ashes on the ground
All that im holding in my hand baby is yours to take
all that im holding in my head baby is yours to shake
All that im holding in my hand baby is yours to take
all that im holding in my head baby is yours to shake
its yours to shake
yours to shake
yours to shake
ooh, ooh
It isn't all bad,
it isn't all good
We'll never get it all right, but we can make it work
It isnt all bad,
it isnt all good
But I wanna die trying to make it better than we could
If you would give me some sweat, and I would give you blood
We can meet up in the middle,
baby, make some noise
If you would give me some sweat, and I would give you blood
We can meet up in the middle,

baby, make some love
What's it worth to you?
What's it worth to you?
Say you wanna feel the fire,
but you don't wanna get burned
Best keep your distance from me,
because Im a fiery one
I wanna burn all of your walls,
and the ashes on the ground
All that im holding in my hand baby its yours to take
all that im holding in my head baby its yours to shake x4
its yours to shake
its yours to shake
ooh, ooh
