

All Gone Dead

Subhumans

All is quiet all is dead
The city has melted
The sound has penetrated
Through our heads
The world has ended the gas is gone
It killed the people now the mutants live onChorus:
So long to the world
That's what they said
It's 1984 and it's all gone deadThere is no England
Anarchy is right
But don't contradict
Or try to fight
It's always dark there is no light
And 77 has rose to its heightChorusThey shouldn't have brought back hanging
It caused a lot of fuss
No one could trust the government
We had the fuckers sussed
There are no banks left
They've all gone bust
And the houses of Parliament is just a pile of dustChorusIt's 1984 and there's gonna be a war
War...War..There is fucking war
