# April Showers

## Spike Jones And The City Slickers

Looking for an angel in these hills
Looking for a map to find what we left behind, knowing that we will
Always end up right where we start
'Cause I got time on my hands and hope in my heart
We both understand we weren't meant to be apart
April showers bring May flowers
And I have seen rain before
But if Sunday morning lets that sun in
What are we waiting for
'Cause love leaves an open door
If I had one wish I'd wish for two
One for me, baby, and one for you
And it would find you right where you are
With time on your hands and hope in your heart
We both understand we were written in the stars
April showers bring May flowers
And I have seen rain before
But if Sunday morning lets that sun in
What are we waiting for
'Cause love leaves an open door
It's worth all the cost
'Til I find what I lost in your eyes
And you realize
April showers bring May flowers
We have seen rain before
But if Sunday morning lets that sun in
What are we waiting for
'Cause love leaves an open, wishing and hoping
Love leaves an open
