## Starsarefallingforus

You make me lose my attention  
And all my focus is on you  
A hyperactive connection  
We have and will never lose  
I could have it all but all I would  
Want is for you to smile  
Your love strikes like a dream  
And you make me twitchAnd I love the way you do  
Your love is a shooting star  
I'll make my wish to stay with youYou and I could last forever  
Break free of all life's chains  
Like star-crossed lovers we move so fast  
But I know you were right for me  
I could feel your smooth cold lips  
Touch mine in a primitive motion  
When your fingers grip my hands  
I could feel our connection  
A love that's only direction  
Is moving forwardAnd I love the way you do  
Your love is a shooting star  
I'll make my wish to stay with you  
And I'll keep you in my reach at all times  
I'll make sure that you're always mine  
I promise I'll never lose my grip.
