Get Ready

Dennis Edwards

I know the storm is coming
There are clouds up ahead
You can't keep running
You better face the clouds instead
When the storm winds blow
Don't you cover and hide
You've got to let go of the demons
You're keeping inside
There's no shelter from your pain
So get ready for the rain
Get ready for the rain
Now you can't change the weather
Though you've tried to for years
But the rain is coming
And there's no way to hold back the tears
Too late to say you're sorry
You'll have to take the blame
But the water is rising
And it won't wash your problems away
There's no shelter from your pain
So get ready for the rain
Get ready for the rain
So get ready for the rain
Get ready for the rain
