

Easy Way Out

Charlotte Church

Want you to see my point of view
I only want the best for you
Understand, I'm not being cruel
I see he treats you like a fool You've heard the truth, you've heard it all
You're trying to run but you can't crawl
See nothing's changed, the situation's just the same He's given you nothing but taken it all
You're taking the easy way out
I'll say it again like I've said it before
Stop taking the easy way out You're taking the easy way out Each night you call, more tears again
Time to accept, he'll never change
It's your life, your choice, your own despair
Your burden's far too much to bear You know the truth, you've heard it all
Just trying to catch you before you fall
See nothing's new, the situation's up to you He's given you nothing but taken it all
You're taking the easy way out
I'll say it again like I've said it before
Stop taking the easy way out You're taking the easy way out
You're taking the easy way out You turn to me 'cause you can't see
That there's a better way to be
So close your eyes and say, goodbye He's given you nothing but taken it all
You're taking the easy way out
I'll say it again like I've said it before
Stop taking the easy way out You're taking the easy way out
You're taking the easy way out You've got to give it up, turn around
Walk away, don't look down
You've got to give it up, turn around
Walk away, don't look down
You're taking the easy way out
