

Big City Dreams

Jim Adkins

You say we're both little people and you like it that way
But in time I'm gonna put this body to shame (grow old)
 Wear a suit like my old man
Pack up all my things and get my ass outta townWe've got it good
 Whether you like this town or not
 I know it's small but with a big head
 it's bound to get hot
 In the summer
 But the summer is a bummer
 If you can't leave
This pathetic excuse for a townThat holds all your memories
 A lifetime of crushes and your broken dreams
 To be anywhere but here
 But baby anywhere is away from meAnd ooh, hoo
 If you got it all figured out
 Then what is there to shout about
 This midwest town is gonna miss you
 Ooooooh
 Just go ahead and work it out
 But first come on and let it out
Scream it shout tell everybody that you're gonna leaveIn about one year you'll have it all figured out
 These big city dreams are what you're about
 Walking like strangers among these states
Only time will tell how long I can waitWe've got it good
 Whether you like this town or not
 I know it's small but with a big head
 it's bound to get hot
 In the summer
 But the summer is a bummer
 If you can't leave
This pathetic excuse for a townThat holds all your memories
 A lifetime of crushes and your broken dreams
 To be anywhere but here
 But baby anywhere is away from meAnd ooh, hoo
 If you got it all figured out
 Then what is there to shout about
 This midwest town is gonna miss you
 Ooooooh
 Just go ahead and work it out

But first come on and let it out
Scream it shout tell everybody that your gonna leaveMe again oh so casually
Did you take the hit for me or the home teamIf you got it all figured out
Then what is there to shout about
This midwest town is gonna miss you
