If I Were You

Jason Castro

If I were you
I would fall for me
Keep every promise,
Answer my calls
And I would never let you down
Ohhh

If i were you I would turn that car around
Come speeding back tonight
And I, I would wonder how
I got so lucky that I'm right here with you
If i were you I'd know exactly what to do

I would take you by the hand and i would keep holding tight
If you wanna go to sleep I got a lullaby
I know exactly what to say and i would do what you need
If I were you, I would fall for me
Yeah, I would fall for me

If I were you I would drop out of school
Forget the grades, you'd have it made
You'll see, you belong to me
If I could make you realize that all you want is all I've got
Please stay here and don't ever leave, no

I'm so happy that I'm right here with you
Loving you is really all I've wanted to do

I would take you by the hand and I would keep holding tight
And if you wanna go to sleep I got a lullaby
I know exactly what to say and I would do what you need
If I were you I'd fall
Again and again and know if you have any doubt
And if you ever for a second forget what you've found
I'll show you the world, I'll make you believe
If I were you, I would fall for me
I'd fall hard and fast and I'd never look back if I were you
Just close your eyes and you'll see, yeah

I would take you by the hand and I would keep holding tight

If you wanna go to sleep I got a lullaby
I know exactly what to say and I would do what you need
If I were you, I'd fall again and again
And know if you have any doubt
And if you ever for a second forget what you've found
I'll show you the world, I'll make you believe
If I were you, I would fall for me, for me, for me, yeah
I would fall for me, for me, for me, oh
I'd fall for me, for me, for me, yeah
I would fall for me, for me, for me
If I were you, I would fall for me.
