

# A Long Way Home

## Eighteen Visions

Can someone save me, from this hell I've made?  
Can someone save me, before it's tooLate nights have driven me insane  
From you, I feel so far awayI'm all alone now in this hell I've made  
I'm all alone now, I think it's tooLate nights have driven me insane  
From you I feel so far away  
Late nights have driven me insane  
From you I feel so far away  
(I feel so far away)Can you tear me away from this, I said  
Can you tear me away  
Can you tear me away from this, I said  
Can you tear me away  
Can you tear me away from this, I said  
Can you tear me awayCan someone save me, from this hell I've made  
Can someone save me, before it's tooLate nights have driven me insane  
From you I feel so far away  
Late nights have driven me insane  
From you I feel so far away  
(I feel so far away)
