

# Together Forever

[Dolly Parton](#)

Together, together  
You and I should always stay together  
Forever, forever  
You and I should always stay together There's nothing we can't do  
There's no post we can't get to  
Nothing we can't get through  
Together (Together)  
All the mountains, oceans, tides, long as you are by my side  
We'll come out alright  
Together (Together) Together, together  
You and I should always stay together  
Forever, forever  
You and I should always stay together  
Adventures can be fun  
As long as there's someone  
Besides you that can share in your "whatever"s (whatever)  
And even when you stray  
You'll always find a way  
And that's why you and I must stay together Together, together  
You and I should always stay together  
Forever, forever  
You and I should always stay together So let's be friends for life  
Let's see eye to eye  
Forever you and I  
Together  
Together, together  
You and I should always stay together  
Forever, forever  
You and I should always stay together  
You and I should always stay together  
Don't you think? Let's stay together
