

# Get Her Off My Mind

## Distant Sun

When she broke it off I thought that I'd be fine but no, what did I know?  
Now I need someone to help me feel alright so go, go and turn my head  
'Cos I hope that part of me ain't dead Help me out, I think you know I need it  
Help me out and get her off my mind if you  
Help me out and do it like you mean it  
I'll move on to you  
Oh yes I will I've been going out and drinking by myself, I need to kill what's left inside  
But when I saw you there you took me somewhere else so please come out with me tonight  
and show my that my luck is on the rise Help me out, I think you know I need it  
Help me out and get her off my mind if you  
Help me out and do it like you mean it  
I'll move on to you  
Oh yes I will Cos I need somebody new and I want someone like you  
and I need somebody new and I want someone like you  
and I need somebody new and I want someone like you  
and I need somebody new and I want someone like you To Help me out, I think you know I need it  
Help me out and get her off my mind if you  
Help me out and do it like you mean it  
I'll move on to you Help me out, I think you know I need it  
Help me out and get her off my mind if you  
Help me out and do it like you mean it  
I'll move on to you  
Oh yes I will
