

# Snow Angel

[Tori Amos](#)

As the bell brought in midwinter I waited for a sign  
A shadow of a wing this has always been  
The children know this  
That she will come to them, to them, to them  
Snow angel, snow angel, snow angel  
She'll make her way  
And she'll stay for a time, for a time  
In the dark of this midwinter the moon slipped from night  
A shadow of a wing, this has always been  
The children know this  
That she will come to them, to them, to them  
Snow angel, snow angel, snow angel  
She'll make her way  
And she'll stay for a time, for a time  
The children know this  
That she will come to them, to them, to them  
Snow angel, snow angel, snow angel  
She'll make her way  
And she'll stay for a time and it's time
