

Ojai

Den of Ashes

My My My That's no way to treat a friend
Sigh Sigh Sigh for every time you're at the end

You don't have to fall, you're already there my friend
There's a fading light in your eyes

Star Star light, first star that I see tonight
I wish I may, wish I might, upon the star I see tonight
I've wished so many times my Lord, my star has faded to nothing more
There's no more light in the sky

Ojai, hollow night
The wind is blowing fast in my Sport Satellite
Ojai, hollow night
The wind is blowing past as I drive through the night

Lie lie lie
You lie again to me my friend
Lie lie lie
You lie until your bitter end
But you can't lie to God, he sees through you paper thin
There's no more life in your eyes

Die die die
your ashes blowing in the wind
Drive into the night
The setting sun is going dim
You don't have to fall, you're already there my friend
There's a shooting star in the sky

Ojai, hollow night
The wind is blowing fast in my Sport Satellite
Ojai, Hollow night
Now I'm free at last as I drive through the night
