# Camera

## JULIAS MOON

I gotta make it home before she call me
I wanna be alone, yeah
I've been waiting all day long for her to call me
Hmm, now i see her on my phone, yeahShe poured a drink
And ...
She takes of her clothes
I just stayed awake
She's in the zone
I can't even explain
She's touching herself
Uhh driving me insane
(Woah, driving me insane)I know they call it FaceTime but
It ain't her face I see
Oh show me something baby
It's just you and me
Facetime but
It ain't her face I see
Oh show me something baby
It's just you and meOh, work that camera (Huh uh, yeah yeah)
Oh, work that camera
Mmm, now could you do that for me?
Oh, work that camera (Huh uh, yeah yeah)
Oh, work that camera
There's no other wayI am far away but right now it is okay 'cause
This is something new, yeah
I am gonna stay right here all night 'cause
She's ready for round 2 (yeah)She poured a drink
And ...
She takes of her clothes
I just stayed awake
She's in the zone
I can't even explain
She's touching herself
Uhh driving me insane
(Woah, driving me insane x2)I know they call it FaceTime but
It ain't her face I see
Oh show me something baby
It's just you and me
Facetime but

It ain't her face I see
Oh show me something baby
It's just you and meOh, work that camera (Huh uh, yeah yeah)
Oh, work that camera
Mmm, now could you do that for me?
Oh, work that camera (Huh uh, yeah yeah)
Oh, work that cameraWhat I wouldn't do to hold you right now
Uhh baby, I wish I could
What I wouldn't give to feel you right here
Uhh baby, you got me going crazy forFacetime, it aint her face I see
Oh show me something baby
It's just you and me
Facetime but
It ain't her face I see
Oh show me something baby
It's just you and meOh, work that camera (Huh uh, yeah yeah)
Oh, work that camera
Mmm, now could you do that for me?
Oh, work that camera (Huh uh, yeah yeah)
Oh, work that camera
You know that, there ain't no other way
