How Much Can I Do

Los Lobos

You know I love you Baby
Every word is true
There ain't nothing in this world I
Would do for you to show my love is true
To show my love is trueTo show I love you Honey
This is what I'll do
I'll stop chasing every pretty little
Girl in town to show my love is true
To show my love is trueTo show I love you Sugar
Baby hear me through
I'll quit hanging around those topless bars
And stay right here with you
To show my love is trueTo show how much I love you
What more can I do
I won't drink that premium T-bird wine
And stay right here with you
To show my love is trueTo show I love you Darling
How much can I do
I'll give up my friends, that old
Juke box, hang up my rocking shoes
To show my love is trueNow wait a minute Baby
Let me think this thru
I can't see myself
Wasting all my time
Trying to prove my love for you
Let's see who's love is true
