

Alaska

Dead!

Yeah I found a home in that trees about a mile from my house
I've built walls to keep me in and everyone else out
Now the nights would go on, just me and the moon
I'd be lying if I said I won't end up missing you
It's just something Maybe I'll wake and stumble home
With solace in my veins from being here alone
We will live like wolves, we'll hunt in love
Darling, I swear to God
That I found a home in the night, with twilight eyes
Now the clouds are rolling in to take over the night
And it'll get cold in my heart, a big change from the start
If you see me again, we'll be a world apart
It's just something Maybe I'll wake and stumble home
With solace in my veins from being here alone
We will live like wolves, we'll hunt in love
Darling, I swear It's just something I have to do
It's just something I have to do
It's just something I have to do
It's just something
I have to do woah yeah
woah
Now I can't reach you
This is hurtful for me
I've been calling outside
As long as you'll remember you and me
We will live like wolves, we'll hunt in love
Darling, I swear
Maybe I'll wake and stumble home
With solace in my veins from being here alone
We will live like wolves, we'll hunt in love
Darling, I swear to God
