## Hundred Reasons

see you around as a friend  
eight days the same you'd bore me just leave it  
we prefer lies after rain  
she said leave it i can't leave it\*[CHORUS]\*  
say what you wanted to ask me  
while you were sitting down  
say what you wanted to ask me  
so you open up nowfake plastic smiles to play games  
please call my name ignore me and feel it  
i thought that i had won gold  
she said leave it i can't leave this\*[CHORUS]\*take it or leave it
