

Another Vendetta

Embrace Destruction

the power is controlling human lifes
legendary beliefs imposed as values
humanity is going nowhere
sacrificed to the color of moneythis is the hell we have to face
this is the real infernono one is born to loose his freedom
no chains can restrain the human mind
humanity is going nowhere
we are all cursed in this graveyardthis is the hell we have to face
this is the real infernothis is the new reign of terror
this is greatest sin
this is greatest sin
a sin that we createthe earth embrace destruction
calling for the inferno
this doom is striking now
is striking now
