

# Decapitation Blues

## Clutch

The experts agree, the condition was dire  
By all indications the subject should have expired  
You've been banging your head like a teenaged fool  
Here you've been kicked in the neck by a three-legged mule Do you care to confess to traumatic abuse?  
You have an advanced case of the decapitation blues Upon my release I had my suspicions  
That they were too liberal and skillful with all the incisions  
Cool heads prevailed and now it's all too clear to me  
That reanimation is not what it's all cracked up to be Do you care to confess to traumatic abuse?  
You have an advanced case of the decapitation blues Now a congress of corpses is always in session  
Debating the wisdom of my current direction  
You've been banging your head like a teenaged fool  
Here you've been kicked in the neck by a three-legged mule Do you care to confess to traumatic abuse?  
You have an advanced case of the decapitation blues  
Do you care to confess to traumatic abuse?  
You have an advanced case of the decapitation blues
