Without a Sound

Sparta

You rush up to the top
To find that you had lost
In my mind you're still in the lead
And youYou're all I'll ever need
You're all I'll ever needYou left a heavy heart
You tried to pull apart
At some point you'll have to make stand
And youYou're all I'll ever need
You're all I'll ever needRush by hand in hand
And fall from the sea to land
And don't let the sun go down
Run this light, run this lightYou, you run out into the crowd
Death without a sound
In this light you die to struggle on
And youYou're all I'll ever needRush by hand in hand
And fall from the sea to land
And don't let the sun go down
Run this light, run this lightRush by hand in hand
And fall from the sea to land
And don't let the sun go down
Run this light, run this lightAll I'll ever need
All I'll ever need
You're all I'll ever need
You're all I'll ever need
All I'll ever needNo, none of this will count
Death without a sound
