

# LUCKY LADY FEEL SO GOOD

## Toshiki Kadomatsu

Crossing a swaying heat haze  
I receive your 2Call  
Even though I know that I won't bear it  
I end up laughing happily on the phone, Baby!!

Lucky lady feel so good  
If I could, I'd run away with you tonight  
I wanna make love with you  
I just wanna hold your hands, Want you

The sunrise with you is still far  
While your hair is waving intensely  
You fear the end of the relationship, forget it now  
The time stops when I'm with you, High light

Lucky lady feel so good  
When you come wearing a dress  
I wanna make love with you  
Our breath is getting stronger and stronger, Hold you

You can remain blindfolded if you want to  
We're cornered by love in a trap of the heart, Good night

Lucky lady feel so good  
If I could, I'd run away with you tonight  
I wanna make love with you  
I just wanna hold your hands Want you  
Lucky lady feel so good  
If I could, I'd run away with you tonight  
I wanna make love with you  
I just wanna hold your hands Want you

Lucky lady feel so good  
When you come wearing a dress  
I wanna make love with you  
Our breath is getting stronger and stronger, Hold you
