

# Firing Squad

## Willie Breeding

Firing Squad, ain't no tellin' what they might do  
Firing Squad, tell the niggas we'll invite you  
Firing Squad, to the battlefield so they can wipe you  
Firing Squad, that's them niggas that don't like you  
Firing Squad, ain't no tellin' what they might do  
Firing Squad, tell the niggas we'll invite you  
Firing Squad, to the battlefield so they can wipe you  
Firing Squad, that's them niggas that don't like you  
Everybody hit the floor, aw shit, not again  
Don't flinch, all F A T emcees lay the bench  
Future of jewels, we just cruise on your maggot ass  
Now make your move and we'll squeeze tools at your fagot ass  
Now, guess who's back in the place? Kid I missed M.O.P  
Hey, I'm sorry you had to wait G  
In '93 you barely heard us in the crowd  
So we eject from select and now our shit is bumpin' loud  
Firing Squad, back on the case, to school  
Ya turnin' more boys to men than the great Luke Dubra  
Boo, yah, do ya plan to stand and prove?  
Remember I got love for only a handful  
That's Danze architechtin' the game plan to bust down ya level  
I've already smacked this shit out to your main man  
I don't think you want no static C  
Automatically, automatic G's bump somethin'  
Firing Squad, ain't no tellin' what they might do  
Firing Squad, tell the niggas we'll invite you  
Firing Squad, to the battlefield so they can wipe you  
Firing Squad, that's them niggas that don't like you  
Count your blessings, just mount your Smith, the Wesson's in a hurry  
The more grounds I cover, the more brothers to worry  
Everlastin', got a certified passion for blastin'  
Ass, I'ma never show guns but I'm still an assassin  
Yes, some say my rap's about to crack your afterburn  
From out the first, send the whole entire earth into a blackout  
Here's the facts about my M.O.P. Click, we get down  
Roll in deep waters we drown, niggas, I'll leave 'em sensin'  
Yo, let it be known we own the walks up on the hill, we own the thrones  
We own the parks, for real, we own the low sharks

Niggas practice what they preach and back with what they reach with

The ill part is on the mic I be kickin' the freak shit

Set it, violators get beheaded, rumors, we dead it

Amazing, how we play is close the show and roll the credits

It's over, straight from Saratoga, said these niggas better recognize

We exercise our lyric, somethin' deadly

Firing Squad, ain't no tellin' what they might do

Firing Squad, tell the niggas we'll invite you

Firing Squad, to the battlefield so they can wipe you

Firing Squad, that's them niggas that don't like you

Firing Squad, ain't no tellin' what they might do

Firing Squad, tell the niggas we'll invite you

Firing Squad, to the battlefield so they can wipe you

Firing Squad, that's them niggas that don't like you

Take it to the streets, watch niggas collapse

Perhaps we could bust raps or bust caps

This is ghetto how we in it and if it's beef you tell me and eat

Billy is to go to war like it's valiance

Once I catch ya, I'm guaranteed to gat ya

Duke, I bet ya, you leave this piece on a stretcher

Ain't nothin' to kid about, I put one in your wig and bounce

Leave the rest for the all time C to figure out

Now, who's that nigga that's tryin' to take my spot?

New jacks in rap must pay dues before they rock

Yo, I run shit like Mr. Hoppa because I pop up

And I rip raps like crack heads strip copper

Partner and bug, fake thugs gon' get no love

You could easily get got by hot sinking slugs

Nigga, what? I take your pride and slide

And turn your rap cipher into a motherfuckin' homicide

Firing Squad, ain't no tellin' what they might do

Firing Squad, tell the niggas we'll invite you

Firing Squad, to the battlefield so they can wipe you

Firing Squad, that's them niggas that don't like you

Firing Squad, ain't no tellin' what they might do

Firing Squad, tell the niggas we'll invite you

Firing Squad, to the battlefield so they can wipe you

Firing Squad, that's them niggas that don't like you, nigga
