

# Fades Away

## Beach Day

Well you can take a moon right out of the sky.

But the sun will always find a way to shine.

Reflections echo, into the sea.

Take all you've gathered, and bring it back to me. It doesn't really matter, wha-a-at you say.

It doesn't really matter, it just fades away.

Ohohoh.

Ohoh.

Ohohoh

Ohoooh.

I heard about all the things you've said.

You don't know what it was like to be your friend.

Don't you live a double life, and do tonight.(?)

Darkness surrounds you, and only you know why. It doesn't really matter, wha-a-at you say.

It doesn't really matter, it just fades away.

Ohohoh.

Ohoh.

Ohohoh

Ohoooh.

It doesn't really matter, wha-a-at you say.

It doesn't really matter, you just fade away.

It doesn't really matter, wha-a-at you say.

It doesn't really matter, it just fades away.

Ohohoh.

Ohoh.

Ohohoh

Ohoooh.
