Impossibility

Embolism

As the earth swung this golden hum
Seemed to wash over me
As the bells ringed, I heard you sing
And it called me out to sea
You said
"How did you know, fine living makes you slow
How could you know I was the one?
And how could you see impossibility
As far as you know I am your sun oh"
See I woke up frail and perfect
See I woke up tired and warm
As the old man stands to judge us all
I believe I am reborn
You said
"How could we know, fine living makes you slow
How could I know you were the one
I said how could you see impossibility
As far as I know I am your sun oh"
I swore, forever more
I would stand up bright and clear
As we rise above our doubts and fears
Singing out so all may hear
