

# Way She Moves

## Scott Weiland & The Wildabouts

You got to be around the way she moves  
And understand the words she uses  
We like to feel the same and touch each other  
Look each other in the eye Ooh Ooh Ooh The sandman's coming round  
But she'll make him cry Ooh Ooh Ooh I sometimes just don't get the way  
Understand it's about the way she talks  
But all I wanna do is love her  
All I wanna do is watch the way she walks Ooh Ooh Ooh The sandman's coming round  
But she'll make him cry  
She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound  
She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound Since I met  
No I never could have ever  
Ever ever let her out of my mind  
We like to feel the same and touch each other  
Look each other in the eye Ooh Ooh The sandman's coming round  
But she'll make him cry  
She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound  
She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound Oh yeah yeah, yeah c'mon She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound  
She's never coming down  
When we're hangin' 'round  
We can always be found  
Even when there's nothing but sound C'mon c'mon yeah yeah
