Go Forth And Die

Dethklok

Trapped inside a box
Four long years
Hiding from the world
Punished by your peersStudied teachers words
Staff appointed hearts
Earned a piece of paper
No go forth and startGo forth Be conquered
Go Forth and DieNow you've graduated
Mind is mutilated
Thrust into the world
Feeling segregated
Move in with your parents
Back into the dark
Landed where you started
Bachelor of ArtsThe learning starts now...
Open up your textbooks and turn to the
Chapter concerning your DETHNight sky
Bleeds red
Black birds
Bring DETHYou'll be eaten by the blackness
Of your rotting mind that's dying
You're consumed with sharpened wings
That penetrate your frightened lyingGo die
Go die
Go die go!Now you're sad and frightened
Want to go and hide
Maybe get your masters
Eight more years inside
Dream of your own murder
Strangled by the IVY
Drown in student loans
Better off just dyingGo Die
Go DieYou'll be eaten by the blackness
Of your rotting mind that's dying
You're consumed with sharpened wings
That penetrate your frightened lyingGo Forth Be conquered
Go forth and die
Go forth be conquered
Go forth and die

Go forth and die
Go forth and die
Go forth and die
Go forth and die
