Know Why The Nightingale Sings

Nightwish (Angels Fall First)

What does the free fall feel like?
Asks the boy with a spark in his eye
Know why the nightingale sings?
Is the answer to everythingTaking a step to a world unbound
Spinning my fantasies all around
Freed from the gravital leash
I swear the heaven's in my reachDancing with the spirit of the air
In this ocean so open and fair
Making love to the gods above
On my maiden voyage so boldLanding safely to the blue lagoon
Don't know if this is the earth or the moon
Joy of living is no more a mask
The Eden I found will forever lastMigrating with the geese
My soul has finally found peace
Doesn't matter that man has no wings
As long as I hear the nightingale sing...
