

# Know Why The Nightingale Sings

## Nightwish (Angels Fall First)

What does the free fall feel like?  
Asks the boy with a spark in his eye  
Know why the nightingale sings?  
Is the answer to everything Taking a step to a world unbound  
Spinning my fantasies all around  
Freed from the gravital leash  
I swear the heaven's in my reach Dancing with the spirit of the air  
In this ocean so open and fair  
Making love to the gods above  
On my maiden voyage so bold Landing safely to the blue lagoon  
Don't know if this is the earth or the moon  
Joy of living is no more a mask  
The Eden I found will forever last Migrating with the geese  
My soul has finally found peace  
Doesn't matter that man has no wings  
As long as I hear the nightingale sing...
