

All We Got Is Time

Timeflies

Summer time roof off
Drivin' round with my shoes off
She's singing along with that Snoop Dogg
And that 2Pac
And that's too hot All eyes on you can't watch the road
In a 65 doin' 24
We live fast and we ride slow
I got time to spend you got time to blow We don't go to rush
(I'm here whenever)
Lost inside your love
(When we're together)
One night's not enough
(We got forever)
Time to turn it up Every minute I'm with you
Every second blows my mind
We don't got a thing to lose
All we got is time
Every hour every day
Even if the sun don't shine
Everything 'll be okay
'Cause all we got is time Everybody get laid back, posted up
Champagne, toast to us
My body yo body on me I just can't get close enough And we'll chill by the fire
While we get higher and higher
Then we'll get drunk and retire and then we do it again We don't got to rush
(I'm here whenever)
Lost inside your love
(When we're together)
One night's not enough
(We got forever)
Time to turn it up Every minute I'm with you
Every second blows my mind
We don't got a thing to lose
All we got is time
Every hour every day
Even if the sun don't shine
Everything 'll be OK
'Cause all we got is time See all we got is time
All we got

Is time We don't got to rush
(I'm here whenever)
Lost inside your love
(When we're together)
One night's not enough
(We got forever)

Time to turn it up We don't got to rush
(I'm here whenever)
Lost inside your love
(When we're together)
One night's not enough
(We got forever)

Time to turn it up Every minute I'm with you
Every second blows my mind
We don't got a thing to lose
All we got is time
Every hour every day
Even if the sun don't shine
Everything 'll be okay

'Cause all we got is time Every minute I'm with you
Every second blows my mind
We don't got a thing to lose
All we got is time
