

X

System of a Down

Tell the people
Tell the people that arrive
Tell the people
Tell the people that arrive We don't need to multiply
We don't need to multiply
We don't need to multiply
We don't need to multiply Die! Show your people
Show your people how we died
Show your people
Show your people how we died We don't need to nullify
We don't need to nullify
We don't need to nullify
We don't need to nullify No need to nullify
No need to nullify
No need to nullify
We don't need to nullify Die! We don't need to
We don't need to
We don't need to
We don't need to Ask your people
Ask your people what is right
Ask your people
Ask your people what is right We don't need to multiply
We don't need to multiply
We don't need to multiply
We don't need to multiply No need to multiply
No need to multiply
No need to multiply
We don't need to multiply
