Never Let It Be Said

Trace Balin

Shifting here and there in darkened places wearing a mask.
Rumors only have their place if there are questions to ask.
Some will never know what I do if they're not standing nearby.
I'm not very talented in the art of crating a lie.

In a moment of weakness
Or the heat of the night,
I must always choose what is right.

Never let it be said,
"I was unfaithful to you."
Voices calling out loud,
"I was unfaithful to you."
Never, never.
While many are falling and hang by a thread.
I'm sure of my calling and faithfully led.
I'll never, never let it be said.

I can see Your face before me; it's as bright as a star.
Shining like a guiding light if I should wander too far. (Ooohoo)
But if it wasn't there I would prove my commitment is strong. (So strong)
'Cause character is greater than guilt to keep me where I belong.

In a moment of weakness
Or the heat of the night,
I must always choose what is right.

Never let it be said,
"I was unfaithful to you."
Voices calling out loud,
"I was unfaithful to you."
Never, never.
While many are falling and hang by a thread.
I'm sure of my calling and faithfully led.
I'll never, never let it be said.

The Mighty One has set the example
By being faithful to the Father unto death.
And as He suffered He refused the temptation,

Obeying to His final breath.

Never let it be said,
"I was unfaithful to you."
Voices calling out loud,
"I was unfaithful to you."
Never, never.
While many are falling and hang by a thread.
I'm sure of my calling and faithfully led.
I'll never, never let it be said.
Never, never.
While many are falling and hang by a thread.
I'm sure of my calling and faithfully led.
I'll never, never let it be said. (Oh)
Never, never let it be said. (No, no)
I'll never, never let it be said. (Never)
Never, never let it be said.
