

# Times Up

## Casey Jones

times running out  
the candle only burns so bright  
times running out  
it's time for you to blind the world  
and shine till you blind the world  
show how  
how much you need me and i need you  
together we'll reach our goals  
through each other  
quit searching for the answers  
make your own fucking meaning of life  
times running out
