

The Right Way

Tynisha Keli

Wish I could find more hours in a day, day
If you really love somebody
You'll find a way, a way
The last thing you want to hear is an excuse
You don't want to hear it
Or another reason why
I can't be there with you, you
Now it gets on your nerves
Now that I don't put you first
It's so undeserved, I'm just sayin'
And for what it's worth
I can see why it hurts
I know you deserve better
That's why I wanna love you
Really wanna love you
I wanna love you
Love you the right way I wanna love you
Really wanna love you
I wanna love you
Love you the right way Give you my heart
Give you my time
Give you all my love
Give you my mind, baby I wanna love you
Really wanna love you
I wanna love you
Love you the right way If I had it my way
It would only be you and me
(You and me)
In a perfect world
Loving you would be my only priority
I'm really hoping we can work through our issues
(Baby we can work it out)
Because missing you is something
I could never get used to Now it gets on your nerves
Now that I don't put you first
It's so undeserved, I'm just sayin'
And for what it's worth
I can see why it hurts
I know you deserve better
That's why I wanna love you

Really wanna love you
I wanna love you
Love you the right way
(Love you the right way)I wanna love you
Really wanna love you
I wanna love you
Love you the right wayGive you my heart
Give you my time
Give you all my love
Give you my mind, babyI wanna love you
Really wanna love you
(I really wanna love you)
I wanna love you
Love you the right wayDon't want to fight
Need you in my life
Right here by my side
We gonna get it right
Hear me when I say
I'll never go away
Gonna make a changeDon't want to fight
Need you in my life
Right here by my side
We gonna get it right
Hear me when I say
I'll never go away
Gonna make a changeI wanna love you
Really wanna love you

Love you the right way
(Love you the right way)I wanna love you
Really wanna love you
I wanna love you
