

# Summer Rain

Liam Bailey

Sleep in the morning forecast is cloud shadows of my wounded mind, cloud undercover wonder where you are

wonder what you see this time, cus I'm

more than the lover you think I am I'm really alright, oh I'm

more than the lover you think I am I'm really alright If you go

it happens again,

if you stay

you can be my summer rain Drive in the city everythings hard artillery inside my chest,  
my luck will riot your keeping quiet I don't wanna be like this and I can't believe in true love,

not unless your coming to love

please don't take away my summer rain If you go

it happens again,

if you stay

you can be my summer rain If you go

it happens again,

if you stay

you can be my summer rain If you go

it happens again,

if you stay

you can be my summer rain, cus I'm more than the lover you think I am I'm really alright, yes I'm more than the

lover you think I am I'm really alright, oh I'm more than the lover you think I am I'm really alright, cus I'm

more than the lover you think I am I'm really alright, Girl more than the lover you think I am I'm really alright

more than the lover you think I am I'm really alright

I'm really alright

I'm really alright

I'm really alright Added by Michael Edmonds
