

Nobody Does It Like You

Shawn Desman

I got a smile that's written on my face
No way to hide and the one to blame is you, you, you
Your kind of lovin' makes the sun come out
Nobody else could ever hold it down like you, you, you
You make it feel so right when you turn off the lights
And I put my hands on your body
Make my knees go weak and my heart skip a beat and
Nobody does it (hey) Nobody does it like
You, you, you,
Nobody does it like
You, you, you
Nobody does it like you
I try to sleep but when I close my eyes
The only think that's ever on my mind is you, you, you
And when you call I need you back right now (right now)
The one think that I could never live without is you, you, you
You make it feel so right when you turn off the lights
And I put my hands on your body
Make my knees go weak and my heart skip a beat and

Nobody does it (hey) Nobody does it like
You, you you
Nobody does it like
You, you, you
Nobody does it (hey) Nobody does it like
You, you you
Nobody does it like
You, you, you
You got that somethin' (hey)
You got that somethin'
That I want girl, that I need girl
You got that somethin' (hey)
You got that somethin'
That all the guys want, but I'm the only one that's got
You, you, you. (x2)
Nobody does it like
You, you, you (x2)
You (nobody, nobody, nobody) (x2)
You
