

2 B Loved

Janet Jackson

Everybody wants to be needed
Everybody needs to feel loved
I feel like you been deleted
'Cause you lost your love You don't be looking for true love
Let it come to you
It's right in front of you
Grab it
Though I never will be perfect
I'm perfect for you
What you deserve in love
I have it Ooh I just
Wanna live in your heart and mind
Be your everything combined
I want you to need me
Share love with you
Till the end of time
'Cause everybody needs to be loved Everybody wants to feel needed
Everybody needs to feel loved
I can name a million reasons
You and me gon' get along You see I'm not the kinda girl you gotta babysit no no
If you have things to do I understand it
Send me two dozen roses I think that's beautiful
But a single rose is so romantic Ooh I just
Wanna live in your heart and mind
Be your everything combined
I want you to need me
Share love with you
Till the end of time
'Cause everybody needs to be loved Love your technique (ooh yeah)
When you speak (to me)
When I hear your voice
I know love is real
Together complete (I promise)
All treat (no drama)
I just wanna let you know
How I feel Ooh I just
Wanna live in your heart and mind
Be your everything combined
I want you to need me

Share love with you
Till the end of time
'Cause everybody needs to be loved Ooh I just
Wanna live in your heart and mind
Be your everything combined
I want you to need me
Share love with you
Till the end of time
'Cause everybody needs to be loved
Hey
Hey (2x)
