Clock

Joachim Spieth

Clock tick tick tick, tick tock, tick tock
Clock tick tick tick, tick tock, tick tock
Clock tick tick tick, tick tock, tick tock
Wicked mind you hold the hour
But my mind it holds the power
Clock tick tick tick
Where did the time go?
What do I have to show?
Watching the time fly
Watching the time fly
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Where did the time go?
What do I have to show?
Watching the time go by
Watching the time fly
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
My time goes by so slow
My clock goes by so slow
Come closer you can do better than me
Come closer you can do better than me
Come closer you can do better than me
You can do better than me
You can do better than me
You can do better than me
It counts my fears
It counts my fears
It counts my fears
Clock, it counts my fears
Clock, it counts my fears

Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Clock, it counts my fears
Come closer you can do better than me
Come closer you can do better than me
Come closer you can do better than me
