A Simple Plan

Pedro the Lion

The plants and the factories are perfectly run
The workers and bosses are living as one
People are equal, people are good
People are working as hard as they should beIt's food for my family, it's clothes for my kids
The class war is over and everyone winsIt's such a simple plan
To take it like a man
But I'm not sure I canWe fought for a decade, corruption and greed
It gave me a purpose, a reason to breathe
But now that it's over, now that we've won
I still sit in my bedroom alone with a shot gunTo think of my family no longer compels me
With all things in common they'll manage without meIt's such a simple plan
To take it like a man
But I'm not sure I can
And I have a simpler plan
