

# My Dumb Emotions

## Distorted Penguins

I used to think that I would never settle down.

Now it's all I wanna do.

Used to think a ball and chain would hold me bound

That was befor I met you.Now I'm unsure about everything

I thought I knew before

You build me up just to let me down

and I'll come back for moreI used to think that I would always be alone

That there was no one for me

Broken hearts can't be much worse than broken bones

So I don't act sporadicallyFor all my life I've tried to be somebody I am not

Restless running circles gonna give it one more shot.
