

# Burning Bridges

Lucinda Williams

Sometimes press them tenders  
I'm never truly land  
And all your expectation  
I never truly care  
You'll never safe on, or come up with other reason  
You've been weak and I take a bad decision Burning bridges,  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down Now you've a [?] and you lost ti  
You won't get up the fire  
I can add you to my list  
And keep it up at night  
You're the [?]  
There's I stare on braking walls  
The tragedy unfalls Burning bridges,  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down With the [?] was a time to us  
And it might not come again  
You must chose what eyes don't look throw in the end  
Every love is hard  
We have it in a Powel  
And these lonely hours make me worst Burning bridges  
Burning bridges it down  
Burning bridges,  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down Burning bridges  
Burning bridges it down

Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down  
Burning bridges  
Burning bridges it down Why you wanna burn  
Why you wanna burn  
Why you wanna burn it down
