

# These Memories Pass

## Lycia

and then i prevail again, again  
as all these memories pass again  
i look ahead to the new day again  
please no more dark days, dark days  
again, again  
and from the top of the mountain  
i stare down on new flowers  
and go straight into a new day  
and i see the new flowers  
and i drift down towards a new day  
and i feel like new flowers  
now i'm on the steps of a new day  
and new flowers, and new flowers
